

## National Kidney Foundation of Illinois, Inc.

### What our partners are saying about their experience with the KidneyMobile® Screening Program.

*I would like to say "Thank You "to all of you who helped out with the KidneyMobile at Norridge. It was a wonderful day of reaching out to the community. It was a great turn out; we had around 70 people who showed up for the screening. Thanks to the Polish Radio 1030 am and 1490 am that advertised this event for us at no charge. Personnel from Kidney Mobile were kind enough to start the screening early because they saw how many people started showing up early. There were many who benefited from this free screening event. All of the people were provided with referrals and education about kidney disease. The nurse practitioner who was involved in the consultations was interested in coming back again and continuing free screenings due to the need in this community. I am very happy that I was able to help people who were in need.*

**Aneta Ujcik, Renal Social Worker, FMC**

*I just wanted to let you know that yesterday's KidneyMobile event was terrific! The KidneyMobile staff was great. Robert, Regina, and Nancy were easy to work with, obviously knowledgeable of the process, and were so professional. After four hours of constant patients, none of them said a word about being hungry, needing to get on the road, or otherwise. They were awesome and we would love to have them back sometime. Our patients were grateful for the chance to be screened and our nephrologists have received calls already. Thanks for your help in coordinating the event and for thinking of Quincy and our patient population here. You can come back anytime!*

**Carol Lewis, Executive Director, Operations, Quincy Medical Group**
